

MASTER ZULU SOLUTION SDN BHD

INTRODUCTION

Master Zulu Solution Sdn Bhd is a company established on 13 November 2024 (1593813-W). In principle, the purpose of this company was established to penetrate the market of special medical equipments, construction/renovation/developer, TVET, high-tech agriculture and electrical and mechanical engineering industries. However, the company is also always ready to implement any form of business from the aspect of public trade and services. This company is a 100% bumiputera-owned company registered with the Malaysian Companies Commission.

Master Zulu Solution Sdn Bhd also operates together with a real estate company and a construction company namely ASJK Sdn Bhd. Throughout the joint involvement, the company believes that this collaboration can further increase the potential and joint profits. Most of Master Zulu Solution Sdn Bhd's customers are individuals, private companies and government agencies interested in construction, supply, services including building renovation.

The company hopes that Master Zulu Solution Sdn Bhd can make a direct contribution to the economic progress of Malaysia. With the establishment of this company, there will be competitive job and business opportunities in generating income for Malaysians where they have the opportunity to venture into a systematic, dynamic and progressive field of work.
